The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Authority or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

Key matters

National context

For the general population, rising inflation rates, in particular for critical commodities such as energy, food and fuel, is pushing many households into poverty and financial hardship, including those in employment. At a national government level, recent political changes have seen an emphasis on controls on spending, which in turn is placing pressure on public services to manage within limited budgets.

Local Government funding continues to be stretched with increasing cost pressures due to the cost of living crisis, including higher energy costs, increasing pay demands, higher agency costs and increases in supplies and services. Local authority front-line services play a vital role in protecting residents from rising costs; preventing the most vulnerable from falling into destitution and helping to build households long-term financial resilience. At a local level, fire authorities are also essential in driving strong and inclusive local economies.

Our recent value for money work has highlighted a number of governance and financial stability issues at a national level, which is a further indication of the mounting pressure on audited bodies to keep delivering services, whilst also managing transformation and making savings at the same time.

In planning our audit, we will take account of this context in designing a local audit programme which is tailored to your risks and circumstances.

Audit Reporting Delays

In a report published in January 2023 the NAO have highlighted that since 2017-18 there has been a significant decline in the number of local government body accounts including an audit opinion published by the deadlines set by government. The NAO outline a number of reasons for this and proposed actions. In our view, it is critical to early sign off that draft local authority accounts are prepared to a high standard and supported by strong working papers.

Blue Light Collaboration

As part of our planning enquiries and review of minutes we have noted the continued review of the delivery of services under the Blue Light Collaboration with Cheshire Police and the determination of how services should best be delivered. We will continue to monitor this and assess if it has any impact on our audit, either in our financial statement and/or value for money work.

Key matters

Our Responses

- As a firm, we are absolutely committed to audit quality and financial reporting in the local government sector. Our proposed work and fee is set out on page 19.
- We will consider your arrangements for managing and reporting your financial resources as part of our audit in completing our Value for Money work.
- Our value for money work will also consider your arrangements relating to governance and improving economy, efficiency and effectiveness.
- We will continue to provide you and your Audit Committee with sector updates providing our insight on issues from a range of sources and other sector commentators via our Audit Committee updates.
- We hold annual financial reporting workshops for our audited bodies to access the latest technical guidance and interpretation, discuss issues with our experts and create networking links with other audited bodies to support consistent and accurate financial reporting across the sector.

Introduction and headlines

Purpose

This document provides an overview of the planned scope and timing of the statutory audit of Cheshire Fire Authority for those charged with governance.

Respective responsibilities

The National Audit Office ('the NAO') has issued a document entitled Code of Audit Practice ('the Code'). This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set out in the Terms of Appointment and Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA), the body responsible for appointing us as auditor of Cheshire Fire Authority. We draw your attention to both of these documents.

Scope of our audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the Authority's financial statements that have been prepared by management with the oversight of Those Charged With Governance; and we consider whether there are sufficient arrangements in place at the Authority for securing economy, efficiency and effectiveness in your use of resources. Value for money relates to ensuring that resources are used efficiently in order to maximise the outcomes that can be achieved.

The audit of the financial statements does not relieve management or Those Charged With Governance of your responsibilities. It is the responsibility of the Authority to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Authority is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Authority's business and is risk based.

© 2023 Grant Thornton UK LLP.

Introduction and headlines

Significant risks

Those risks requiring special audit consideration and procedures to address the likelihood of a material financial statement error have been identified as:

- management override of controls;
- valuation of property, plant and equipment; and
- valuation of net pension liability

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings (ISA 260) Report.

Materiality

We have determined planning materiality to be £1.2m (PY £1.2m) for the Authority, which equates to 2% of your prior year gross operating costs for the year. We are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance.

Clearly trivial has been set at £61k (PY £61k).

Value for Money arrangements

Our risk assessment regarding your arrangements to secure value for money has not identified any risks of significant weakness. We will continue to update our risk assessment until we issue our Auditor's Annual Report.

New Auditing Standards

There are two auditing standards which have been significantly updated this year. These are ISA 315 (Identifying and assessing the risks of material misstatement) and ISA 240 (the auditor's responsibilities relating to fraud in an audit of financial statements). We provide more detail on the work required later in this plan.

Audit logistics

Our interim visit will take place in April 2023 and our final visit will take place from July – September 2023. Our key deliverables are this Audit Plan, our Audit Findings Report and Auditor's Annual Report.

Our proposed fee for the audit will be £40,606 (PY: £37,742) for the Authority, subject to the Authority delivering a good set of financial statements and working papers.

We have complied with the Financial Reporting Authority's Ethical Standard (revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.

© 2023 Grant Thornton UK LLP.

Significant risks identified

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
International Standard of Auditing (ISA) 240 and Practice Note (PN) 10 revenue/expenditure risk	Under ISA 240 (UK) and PN 10 there is a rebuttable presumed risk that revenue and expenditure may be misstated due to the improper recognition of revenue and expenditure. The presumption can be rebutted if the auditor concludes that there is no risk of material misstatement due to fraud relating to revenue and expenditure recognition.	Having considered the risk factors set out in ISA 240, PN 10, and the nature of the revenue and expenditure streams at the Authority, we have determined that the risk of Fraud arising from revenue and expenditure recognition can be rebutted, because: • there is little incentive to manipulate revenue and expenditure recognition. • opportunities to manipulate revenue and expenditure recognition are very limited as approximately 94% of the Authority's gross income is from taxation or government grants, and a significant proportion of expenditure is easily verifiable. • the culture and ethical frameworks of local authorities, including Cheshire Fire Authority, mean that all forms of fraud are seen as unacceptable. Therefore we do not consider this to be a significant risk for Cheshire Fire Authority. We will continue to review and test, on a sample basis, material revenue and expenditure transactions, ensuring that it remains appropriate to rebut the presumed risk of revenue and expenditure recognition. We will also design and carry out appropriate audit procedures to ascertain the recognition of expenditure is in the correct accounting period using cut-off testing.
Management over-ride of controls	Under ISA 240 (UK) there is a non-rebuttable presumed risk that the risk of management override of controls is present in all entities. The Authority faces external scrutiny of its spending and this could potentially place management under undue pressure in terms of how they report performance. We therefore identified management override of control, in particular journals, management estimates and transactions outside the course of business as a significant risk, which was one of the most significant assessed risks of material misstatement.	We will: • evaluate the design effectiveness of management controls over journals. • analyse the journals listing and determine the criteria for selecting high risk unusual journals. • test unusual journals recorded during the year and after the draft accounts stage for appropriateness and corroboration. • gain an understanding of the accounting estimates and critical judgements applied made by management and consider their reasonableness with regard to corroborative evidence. • evaluate the rationale for any changes in accounting policies, estimates or significant unusual transactions.

'Significant risks often relate to significant non-routine transactions and judgmental matters. Non-routine transactions are transactions that are unusual, due to either size or nature, and that therefore occur infrequently. Judgmental matters may include the development of accounting estimates for which there is significant measurement uncertainty.' (ISA (UK) 315)

Significant risks identified

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
Valuation of land and buildings	The Authority revalues its land and buildings on a five-yearly basis. In the intervening years, to ensure the carrying value in the Authority financial statements is not materially different from the current or fair value at the financial statements date, the Authority requests a desktop valuation from its valuation expert to ensure that there is no material difference. This valuation represents a significant estimate by management in the financial statements due to the size of the numbers involved and the sensitivity of this estimate to changes in key assumptions. We therefore identified valuation of land and buildings as a significant risk, in particular any large or unusual assets or where there have been movements in valuations outside our expectations, as well as testing a sample of those within our expectations. This is one of the most significant assessed risks of material misstatement.	We will: • evaluate management's processes and controls for the calculation of the estimate, the instructions issued to their valuation expert and the scope of their work • evaluate the competence, capabilities, and objectivity of the valuation expert • write to the valuer to confirm the basis on which the valuations were carried out • challenge the information and assumptions used by the valuer to assess completeness and consistency with our understanding • evaluate the valuer’s report to identify assets that have large and unusual changes and/or approaches to the valuation – these assets will be substantively tested to ensure the valuations are reasonable • test a selection of other asset revaluations made during the year to ensure they have been input accurately into the Authority's asset register, revaluation reserve, and Comprehensive Income and Expenditure Statement • evaluate the assumptions made by management for any assets not revalued during the year and how management has satisfied themselves that these are not materially different to current value • for all assets not formally revalued or revalued on a desktop/indexation basis only, evaluate the judgement made by management or others in determination of current value of these assets.

© 2023 Grant Thornton UK LLP.

Significant risks identified

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
Valuation of the pension fund net liability	The Local Government Pension Scheme (LGPS) pension net liability as reflected in the balance sheet, and asset and liability information disclosed in the notes to the accounts, represent a significant estimate in the financial statements. The Firefighters Pension scheme's pension fund liability as reflected in the balance sheet and notes to the accounts also represents a significant estimate in the financial statements. These estimates by their nature are subject to significant estimation uncertainty being sensitive to small adjustments in the key assumptions used. The actuarial assumptions used are the responsibility of the entity but should be set on the advice given by the actuary. A small change in the key assumptions (discount rate, inflation rate, salary increase and life expectancy) can have a significant impact on the estimated IAS 19 liability. In particular the discount and inflation rates, where our consulting actuary has indicated that a 0.1% change in these two assumptions would have approximately 2% effect on the liability. We have therefore concluded that there is a significant risk of material misstatement in the IAS 19 estimate due to the assumptions used in their calculation. With regard to these assumptions we have therefore identified valuation of the Authority's pension fund net liability as a significant risk.	We will: • update our understanding of the processes and controls put in place by management to ensure that the Authority's pension fund net liability is not materially misstated and evaluate the design of the associated controls; • evaluate the instructions issued by management to their management expert (an actuary) for this estimate and the scope of the actuary's work; • assess the competence, capabilities and objectivity of the actuary who carried out the Authority's pension fund valuation; • assess the accuracy and completeness of the information provided by the Authority to the actuary to estimate the liability; • test the consistency of the pension fund asset and liability and disclosures in the notes to the core financial statements with the actuarial report from the actuary; • undertake procedures to confirm the reasonableness of the actuarial assumptions made by reviewing the report of the consulting actuary (as the auditor's expert) and performing any additional procedures suggested within the report; • agree the advance payment made to the pension fund during the year to the expected accounting treatment and relevant financial disclosures; and • obtain assurances from the auditor of Cheshire Pension Fund as to the controls surrounding the validity and accuracy of membership data; contributions data and benefits data sent to the actuary by the pension fund and the fund assets valuation in the Cheshire Pension Fund financial statements. • test the data provided to the actuary of the Fire Fighter Pension Fund.

Management should expect engagement teams to challenge management in areas that are complex, significant or highly judgmental which may be the case for accounting estimates and similar areas. Management should also expect to provide to engagement teams with sufficient evidence to support their judgments and the approach they have adopted for key accounting policies referenced to accounting standards or changes thereto.

Where estimates are used in the preparation of the financial statements management should expect teams to challenge management's assumptions and request evidence to support those assumptions.

© 2023 Grant Thornton UK LLP.

Other matters

Other work

In addition to our responsibilities under the Code of Practice, we have a number of other audit responsibilities, as follows:

- We read your Narrative Report and Annual Governance Statement to check that they are consistent with the financial statements on which we give an opinion and our knowledge of the Authority.
- We carry out work to satisfy ourselves that disclosures made in your Annual Governance Statement are in line with requirements set by CIPFA.
- We carry out work on your consolidation schedules for the Whole of Government Accounts process in accordance with NAO group audit instructions.
- We consider our other duties under legislation and the Code, as and when required, including:
  - giving electors the opportunity to raise questions about your 2022/23 financial statements, consider and decide upon any objections received in relation to the 2022/23 financial statements;
  - issuing a report in the public interest or written recommendations to the Authority under section 24 of the Local Audit and Accountability Act 2014 (the Act).
  - application to the court for a declaration that an item of account is contrary to law under section 28 or a judicial review under section 31 of the Act
  - issuing an advisory notice under section 29 of the Act
- We certify completion of our audit.

Other material balances and transactions

Under International Standards on Auditing, 'irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure'. All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

© 2023 Grant Thornton UK LLP.

Progress against prior year audit recommendations

We identified the following issues in our 2021/22 audit of the Authority's financial statements, which resulted in 2 recommendations being reported in our 2021/22 Audit Findings Report. We are pleased to report that management are in the process of implementing our recommendations.

Assessment	Issue and risk previously communicated	Update on actions taken to address the issue
In Progress	Our review of the Authority's cybersecurity arrangements noted that there is no cybersecurity framework or training programme in place. News of data breaches and online frauds has become a matter of regular occurrence, which serves as a constant reminder that organisations need a robust strategy for fraud prevention and cybersecurity. We recommended that the Authority considers implementing a cybersecurity framework that is followed to design, implement, and monitor cybersecurity controls as well as providing cybersecurity training to employees on a regular basis.	The Authority has approved additional one off funding of £50k in its budget for 2023-24 which will be used to address issues raised in recommendations relating to Cybersecurity by Internal and External Audit. We are consulting with Cheshire Police who deliver IT services through the Blue Light Collaboration to ensure that the action we take has maximum effect. We are already implementing a programme of training for senior officers which commenced on 17th March 2023.
In progress	Our work on Property, Plant and Equipment revaluations identified that there are no plans in place for the valuer to remeasure any of the land or buildings as part of the valuation process. As the floor area of buildings is a key factor in determination of value, it is important that this is kept under review and updated in order to ensure valuations are accurate. We recommended that the Authority considers including a sample of land and buildings to be remeasured, perhaps on a rolling basis, as part of the valuer's scope.	The valuer has been instructed to remeasure a sample of land & buildings assets each year on a rolling basis as recommended, commencing in 2023.

© 2023 Grant Thornton UK LLP.

Our approach to materiality

The concept of materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law.

Matter	Description	Planned audit procedures
1	**Determination** We have determined financial statement materiality based on a proportion of the gross expenditure of the Authority for the financial year. Materiality at the planning stage of our audit is £1,221,180, which equates to 2% of your draft gross expenditure for the period.	We determine planning materiality in order to: – establish what level of misstatement could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements – assist in establishing the scope of our audit engagement and audit tests – determine sample sizes and – assist in evaluating the effect of known and likely misstatements in the financial statements
2	**Other factors** An item does not necessarily have to be large to be considered to have a material effect on the financial statements.	An item may be considered to be material by nature where it may affect instances when greater precision is required. – We have identified senior officer remuneration as a balance where we will apply a lower materiality level, as these are considered sensitive disclosures. We have set a materiality of £16,042. – We have identified audit fees as a balance where we may apply a lower materiality level, as these are considered sensitive disclosures. Any significant differences we identify we will request that management adjust for.

© 2023 Grant Thornton UK LLP.

Our approach to materiality

The concept of materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law.

Matter	Description	Planned audit procedures
3	**Reassessment of materiality** Our assessment of materiality is kept under review throughout the audit process.	We reconsider planning materiality if, during the course of our audit engagement, we become aware of facts and circumstances that would have caused us to make a different determination of planning materiality.
4	**Other communications relating to materiality we will report to the Audit Committee** Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the Audit Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. Under ISA 260 (UK) 'Communication with those charged with governance', we are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. ISA 260 (UK) defines 'clearly trivial' as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria.	We report to the Audit Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. In the context of the Authority, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £61k (PY £61k). If management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to Those Charged With Governance Committee to assist it in fulfilling its governance responsibilities.

© 2023 Grant Thornton UK LLP.

Our approach to materiality

The concept of materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law.

	Amount (£)	Qualitative factors considered
Materiality for the financial statements	1,221,162	Financial performance of the Fire Authority, focussing on gross expenditure.
Materiality for senior officer remuneration	16,042	Materiality has been reduced for remuneration disclosures due to the sensitive nature and public interest.

© 2023 Grant Thornton UK LLP.

IT audit strategy

In accordance with ISA (UK) 315 Revised, we are required to obtain an understanding of the relevant IT and technical infrastructure and details of the processes that operate within the IT environment. We are also required to consider the information captured to identify any audit relevant risks and design appropriate audit procedures in response. As part of this we obtain an understanding of the controls operating over relevant Information Technology (IT) systems i.e., IT general controls (ITGCs). Our audit will include completing an assessment of the design and implementation of relevant ITGCs. We say more about ISA 315 Revised on slide 21.

The following IT systems have been judged to be in scope for our audit and based on the planned financial statement audit approach we will perform the indicated level of assessment:

IT system	Audit area	Planned level IT audit assessment
Agresso	Financial reporting	• A review of the IT General Controls related to security management, development and maintenance and technology infrastructure

© 2023 Grant Thornton UK LLP.

Value for Money arrangements

Approach to Value for Money work for the period ended 31 March 2023

The National Audit Office issued its latest Value for Money guidance to auditors in January 2023 . The Code expects auditors to consider whether a body has put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources. Auditors are expected to report any significant weaknesses in the body's arrangements, should they come to their attention. In undertaking their work, auditors are expected to have regard to three specified reporting criteria. These are as set out below:

Improving economy, efficiency and effectiveness

How the body uses information about its costs and performance to improve the way it manages and delivers its services.

Financial Sustainability

How the body plans and manages its resources to ensure it can continue to deliver its services.

Governance

How the body ensures that it makes informed decisions and properly manages its risks.

We have not identified any risks of significant weaknesses from our initial planning work. We will continue our review of your arrangements, including reviewing your Annual Governance Statement, before we issue our auditor's annual report.

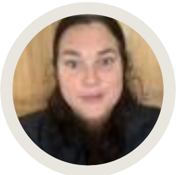
Auditor's Annual Report

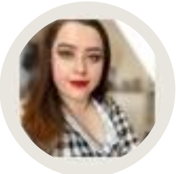
Michael Green, Key Audit Partner

Michael has overall responsibility for the audit and the opinions, for ensuring the quality of our audit work and for ensuring we provide you with the best service possible.



Liz Luddington, Audit Manager

Liz is responsible for the technical and logistical aspects of the audit. She will be the first point of contact for your Treasurer and the finance team.



Chelsey Taylor, Audit Incharge

Chelsey is the day to day contact for finance staff and is responsible for the day to day supervision of the audit team. She will regularly engage with the finance team during our visits to ensure there are no surprises arising from our work.

Audited Entity responsibilities

Where audited bodies do not deliver to the timetable agreed, we need to ensure that this does not impact on audit quality or absorb a disproportionate amount of time, thereby disadvantaging other audited bodies. Where the elapsed time to complete an audit exceeds that agreed due to an entity not meeting its obligations we will not be able to maintain a team on site. Similarly, where additional resources are needed to complete the audit due to an entity not meeting their obligations we are not able to guarantee the delivery of the audit to the agreed timescales. In addition, delayed audits will incur additional audit fees.

Our requirements

To minimise the risk of a delayed audit, you need to :

- ensure that you produce draft financial statements of good quality by the deadline you have agreed with us, including all notes, the Narrative Report and the Annual Governance Statement
- ensure that good quality working papers are available at the start of the audit, in accordance with the working paper requirements schedule that we have shared with you
- ensure that the agreed data reports are available to us at the start of the audit and are reconciled to the values in the accounts, in order to facilitate our selection of samples for testing
- ensure that all appropriate staff are available on site throughout (or as otherwise agreed) the planned period of the audit
- respond promptly and adequately to audit queries.

Audit fees and updated Auditing Standards including ISA 315 Revised

In 2017 PSAA awarded a contract of audit for Cheshire Fire Authority to begin with effect from 2018/19. The fee agreed in the contract was £22,992. Since that time, there have been a number of developments, particularly in relation to the revised Code and ISA's which are relevant for the 2022/23 audit. For details of the changes which impacted on years up to 2021/22 please see our prior year Audit Plans.

The major change impacting on our audit for 2022/23 is the introduction of ISA (UK) 315 (Revised) - Identifying and assessing the risks of material misstatement ('ISA 315'). There are a number of significant changes that will impact the nature and extent of our risk assessment procedures and the work we perform to respond to these identified risks. Key changes include:

- Enhanced requirements around understanding the Authority's-IT Infrastructure and IT environment. From this we will then identify any risks arising from the use of IT. We are then required to identify the IT General Controls ('ITGCs') that address those risks and test the design and implementation of ITGCs that address the risks arising from the use of IT.
- Additional documentation of our understanding of the Authority's business model, which may result in us needing to perform additional inquiries to understand the Authority's end-to-end processes over more classes of transactions, balances and disclosures.
- We are required to identify controls within a business process and identify which of those controls are controls relevant to the audit. These include, but are not limited to, controls over significant risks and journal entries. We will need to identify the risks arising from the use of IT and the general IT controls (ITGCs) as part of obtaining an understanding of relevant controls.
- Where we do not test the operating effectiveness of controls, the assessment of risk will be the inherent risk, this means that our sample sizes may be larger than in previous years.

These are significant changes which will require us to increase the scope, nature and extent of our audit documentation, particularly in respect of your business processes, and your IT controls. We will be unable to determine the full fee impact until we have undertaken further work in respect of the above areas. However, for an authority of your size, we estimate an initial increase of £2,000. We will let you know if our work in respect of business processes and IT controls identifies any issues requiring further audit testing. There is likely to be an ongoing requirement for a fee increase in future years, although we are unable yet to quantify that.

The other major change to Auditing Standards in 2022/23 is in respect of ISA 240 which deals with the auditor's responsibilities relating to fraud in an audit of financial statements. This Standard gives more prominence to the risk of fraud in the audit planning process. We will let you know during the course of the audit should we be required to undertake any additional work in this area which will impact on your fee.

Taking into account the above, our proposed work and fee for 2022/23, as set out below, is detailed overleaf.

© 2023 Grant Thornton UK LLP.

Audit fees

	Actual Fee 2020/21	Actual Fee 2021/22	Proposed fee 2022/23
Cheshire Fire Audit	£37,742	£37,742	£40,606

Assumptions

In setting the above fees, we have assumed that the Authority will:

- prepare a good quality set of accounts, supported by comprehensive and well-presented working papers which are ready at the start of the audit
- provide appropriate analysis, support and evidence to support all critical judgements and significant judgements made during the course of preparing the financial statements
- provide early notice of proposed complex or unusual transactions which could have a material impact on the financial statements.

Relevant professional standards

In preparing our fee estimate, we have had regard to all relevant professional standards, including paragraphs 4.1 and 4.2 of the FRC's Ethical Standard (revised 2019) which stipulate that the Engagement Lead (Key Audit Partner) must set a fee sufficient to enable the resourcing of the audit with partners and staff with appropriate time and skill to deliver an audit to the required professional and Ethical standards.

© 2023 Grant Thornton UK LLP.

Audit fees – detailed analysis

Fee area	Estimated fee
Scale fee published by PSAA	£28,306
Additional work on Value for Money (VfM) under new NAO Code	£6,000
ISA 540	£1,800
Additional work on journals testing	£2,000
Enhanced audit procedures for Payroll – Change of circumstances	£500
Increased audit requirements of revised ISAs 315/ 240	£2,000
Total proposed audit fees 2022/23 (excluding VAT)	**£40,606**

All variations to the scale fee will need to be approved by PSAA

© 2023 Grant Thornton UK LLP.

Independence and non-audit services

Auditor independence

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant facts and matters that may bear upon the integrity, objectivity and independence of the firm or covered persons. relating to our independence. We encourage you to contact us to discuss these or any other independence issues with us. We will also discuss with you if we make additional significant judgements surrounding independence matters.

We confirm that there are no significant facts or matters that impact on our independence as auditors that we are required or wish to draw to your attention. We have complied with the Financial Reporting Authority's Ethical Standard and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements. Further, we have complied with the requirements of the National Audit Office's Auditor Guidance Note 01 issued in May 2020 which sets out supplementary guidance on ethical requirements for auditors of local public bodies.

We confirm that we have implemented policies and procedures to meet the requirements of the Ethical Standard. For the purposes of our audit we have made enquiries of all Grant Thornton UK LLP teams providing services to the Authority. No non-audit services were provided by Grant Thornton.

© 2023 Grant Thornton UK LLP.

Communication of audit matters with those charged with governance

Our communication plan	Audit Plan	Audit Findings
Respective responsibilities of auditor and management/those charged with governance	•	
Overview of the planned scope and timing of the audit, form, timing and expected general content of communications including significant risks and Key Audit Matters	•	
Confirmation of independence and objectivity of the firm, the engagement team members and all other indirectly covered persons	•	•
A statement that we have complied with relevant ethical requirements regarding independence. Relationships and other matters which might be thought to bear on independence. Details of non-audit work performed by Grant Thornton UK LLP and network firms, together with fees charged. Details of safeguards applied to threats to independence	•	•
Significant matters in relation to going concern	•	•
Significant findings from the audit		•
Significant matters and issue arising during the audit and written representations that have been sought		•
Significant difficulties encountered during the audit		•
Significant deficiencies in internal control identified during the audit		•
Significant matters arising in connection with related parties		•
Identification or suspicion of fraud(deliberate manipulation) involving management and/or which results in material misstatement of the financial statements (not typically Authority tax fraud)		•
Non-compliance with laws and regulations		•
Unadjusted misstatements and material disclosure omissions		•
Expected modifications to the auditor's report, or emphasis of matter		•

ISA (UK) 260, as well as other ISAs (UK), prescribe matters which we are required to communicate with those charged with governance, and which we set out in the table here.

This document, the Audit Plan, outlines our audit strategy and plan to deliver the audit, while the Audit Findings will be issued prior to approval of the financial statements and will present key issues, findings and other matters arising from the audit, together with an explanation as to how these have been resolved.

We will communicate any adverse or unexpected findings affecting the audit on a timely basis, either informally or via an audit progress memorandum.

Respective responsibilities

As auditor we are responsible for performing the audit in accordance with ISAs (UK), which is directed towards forming and expressing an opinion on the financial statements that have been prepared by management with the oversight of those charged with governance.

The audit of the financial statements does not relieve management or those charged with governance of their responsibilities.
