The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Authority or any weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

Introduction & headlines

Purpose

This document provides an overview of the planned scope and timing of the statutory audit of Cheshire Fire & Rescue Authority ('the Authority') for those charged with governance.

Respective responsibilities

The National Audit Office ('the NAO') has issued a document entitled Code of Audit Practice ('the Code'). This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set in the Terms of Appointment and Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA), the body responsible for appointing us as auditor of Cheshire Fire and Rescue Authority. We draw your attention to both of these documents on the [PSAA website](#).

Scope of our audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the:

- financial statements (including the Annual Governance Statement) that have been prepared by management with the oversight of those charged with governance (the Authority); and
- Value for Money arrangements in place at the Authority for securing economy, efficiency and effectiveness in your use of resources.

The audit of the financial statements does not relieve management or the Authority of your responsibilities. It is the responsibility of the Authority to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Authority is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Authority's business and is risk based.

Significant risks

Those risks requiring specific audit consideration and procedures to address the likelihood of a material financial statement error have been identified as:

- The revenue cycle includes fraudulent transactions (rebuttable)
- Management over-ride of controls
- Valuation of property, plant and equipment
- Valuation of pension fund net liability

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings (ISA 260) Report.

Materiality

We have determined planning materiality to be £847k (PY £847k), which equates to 2% of your forecast gross expenditure for the year. We are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. Clearly trivial has been set at £42k (PY £42k). Officers remuneration and related party transactions are sensitive to public scrutiny, we will therefore apply a lower level materiality when auditing these aspects and report further in our Audit finding Report.

Value for Money arrangements

We will complete our risk assessment of your arrangements to secure value for money in March 2018. Our initial planning has identified financial sustainability as a potential significant risk.

Audit logistics

Our interim visit will take place in January and February and our final visit will take place in June. Our key deliverables are this Audit Plan and our Audit Findings Report.

Our fee for the Authority audit will be £29,860 (PY: £29,860).

Independence

We have complied with the Financial Reporting Council's Ethical Standard and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements

Deep business understanding

Changes to service delivery

Blue-light collaboration

The provisions of the Policing and Crime Act 2017 came into effect on 3 April 2017. These provisions included:

- introducing the duty to collaborate on all three emergency services;
- enabling PCCs to take on FRA functions where a local case is made; and
- enabling PCC representation on a Fire Authority with voting rights where the Fire Authority agrees

These provisions are expected to change the structure and legal status of many police bodies and fire and rescue authorities.

IRMP and Service transformation plans

The Government is continuing to push forward with its Fire reform agenda. A number of Fire & Rescue Authorities across the country are undergoing service transformations of varying degrees. In addition there are a number of inquiries ongoing into the Grenfell Tower fire that could lead to changes in practices and working arrangements.

Cheshire Fire Authority has been proactive in developing new ways of working and continues to find new areas to work with local authorities. Safety Central is an example of the Authority's innovative prevention work and its reach to schools and community groups.

Changes to financial reporting requirements

Accounts and Audit Regulations 2015 (the Regulations)

The Department of Communities and Local Government (DCLG) is currently undertaking a review of the Regulations, which may be subject to change. The date for any proposed changes has yet to be confirmed, so it is not yet clear or whether they will apply to the 2017/18 financial statements.

Under the 2015 Regulations local authorities are required to publish their accounts along with the auditors opinion by 31 July 2018.

Changes to the CIPFA 2017/18 Accounting Code

CIPFA have introduced minor changes to the 2017/18 Code which:

- introduce key reporting principles for the Narrative Report;
- clarify the reporting requirements for accounting policies and going concern reporting; and
- update the relevant sections regarding reporting requirements for Leases, Service Concession arrangements and Financial Instruments.

Key challenges

Financial pressures

The Authority has always had clear links between its Integrated Risk Management Plan and its Medium Term Financial Strategy. The Authority has recognised a funding gap of £3.9m in the period up to 2012/21 and has built this into its savings and efficiencies plan.

At the same time the Authority is keeping Council Tax raises below 2% during the life of the Medium Term Financial Strategy.

The Authority is utilising its reserves to fund the its general capital programme which at £8m to 2019/20., and has recognised the need and planned for PWLB borrowing.

New Fire Service Inspectorate

As part of its Fire Reform agenda the Government has expanded the remit of the existing Police inspectorate to cover the role of Fire services. The newly established HMICFRS will undertake inspections of Fire services going forward and has recently announced its first three pilot sites.

The Authority has identified procurement as an area of interest for the new Inspectorate. The Authority has begun planning for the replacement of its emergency communications systems through a joint exercise with Cumbria, greater Manchester, Merseyside and Lancashire. or Inspectorate. The Member Development programme has been updated to include the new inspection regime.

Our response

- We will consider your arrangements for managing and reporting your financial resources including your progress on Blue-light collaboration as part of our work in reaching our Value for Money conclusion.
- We will consider whether your financial position leads to uncertainty about the going concern assumption and will review any related disclosures in the financial statements.
- We will keep you informed of changes to the Regulations and any associated changes to financial reporting or public inspection requirements for 2017/18 through on-going discussions and invitations to our technical update workshops.
- As part of our opinion on your financial statements, we will consider whether your financial statements reflect the financial reporting changes in the 2017/18 CIPFA Code.

Significant risks identified

Significant risks are defined by professional standards as risks that, in the judgement of the auditor, require special audit consideration because they have a higher risk of material misstatement. Such risks often relate to significant non-routine transactions and judgmental matters. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood.

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
The revenue cycle includes fraudulent transactions	Under ISA (UK) 240 there is a rebuttable presumed risk that revenue may be misstated due to the improper recognition of revenue. This presumption can be rebutted if the auditor concludes that there is no risk of material misstatement due to fraud relating to revenue recognition.	Having considered the risk factors set out in ISA240 and the nature of the revenue streams at the Authority, we have determined that the risk of fraud arising from revenue recognition can be rebutted, because: <ul style="list-style-type: none">• there is little incentive to manipulate revenue recognition• opportunities to manipulate revenue recognition are very limited• The culture and ethical frameworks of local authorities, including Cheshire Fire and Rescue Authority, mean that all forms of fraud are seen as unacceptable Therefore we do not consider this to be a significant risk for Cheshire Fire and Rescue Authority.
Management over-ride of controls	Under ISA (UK) 240 there is a non-rebuttable presumed risk that the risk of management over-ride of controls is present in all entities. Management over-ride of controls is a risk requiring special audit consideration.	We will: <ul style="list-style-type: none">• gain an understanding of the accounting estimates, judgements applied and decisions made by management and consider their reasonableness• obtain a full listing of journal entries, identify and test unusual journal entries for appropriateness• evaluate the rationale for any changes in accounting policies or significant unusual transactions.

Significant risks identified

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
<p>Valuation of property, plant and equipment</p>	<p>The Authority revalues its land and buildings on an quinquennial basis with an annual review to ensure that carrying value is not materially different from fair value. This represents a significant estimate by management in the financial statements.</p> <p>We identified the valuation of land and buildings revaluations and impairments as a risk requiring special audit consideration.</p>	<p>We will,</p> <ul style="list-style-type: none"> • Review of management's processes and assumptions for the calculation of the estimate, the instructions issued to valuation experts and the scope of their work • Consideration of the competence, expertise and objectivity of any management experts used. • Discussions with the valuer about the basis on which the valuation is carried out and challenge of the key assumptions. • Review and challenge of the information used by the valuer to ensure it is robust and consistent with our understanding. • Testing of revaluations made during the year to ensure they are input correctly into the Authority's asset register • Evaluation of the assumptions made by management for those assets not revalued during the year and how management has satisfied themselves that these are not materially different to current value.
<p>Valuation of pension fund net liability</p>	<p>The Local Government Pension Scheme (LGPS) pension net liability as reflected in the balance sheet, and asset and liability information disclosed in the notes to the accounts, represent significant estimates in the financial statements.</p> <p>The Firefighters Pension schemes pension fund liability as reflected in the balance sheet and notes to the accounts represent significant estimates in the financial statements.</p> <p>These estimates by their nature are subject to significant estimation uncertainty, being sensitive to small adjustments in the assumptions used.</p> <p>We identified the valuation of the pension fund net liability as a risk requiring special audit consideration.</p>	<p>We will:</p> <ul style="list-style-type: none"> • Identify the controls put in place by management to ensure that the pension fund liability is not materially misstated. We will also assess whether these controls were implemented as expected and whether they are sufficient to mitigate the risk of material misstatement • Evaluate the competence, expertise and objectivity of the actuaries who carried out your pension fund valuation. We will gain an understanding of the basis on which the valuations is carried out. • Undertake procedures to confirm the reasonableness of the actuarial assumptions made. • Check the consistency of the pension fund asset and liability and disclosures in notes to the financial statements with the actuarial report from your actuaries.

Reasonably possible risks identified

Reasonably possible risks (RPRs) are, in the auditor's judgment, other risk areas which the auditor has identified as an area where the likelihood of material misstatement cannot be reduced to remote, without the need for gaining an understanding of the associated control environment, along with the performance of an appropriate level of substantive work. The risk of misstatement for an RPR is lower than that for a significant risk, and they are not considered to be areas that are highly judgmental, or unusual in relation to the day to day activities of the business.

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
Employee remuneration	<p>Payroll expenditure represents a significant percentage 73% of the Authority's operating expenses.</p> <p>As the payroll expenditure comes from a number of individual transactions there is a risk that payroll expenditure in the accounts could be understated. We therefore identified completeness of payroll expenses as a risk requiring particular audit attention</p>	<p>We will</p> <ul style="list-style-type: none"> • evaluate the Authority's accounting policy for recognition of payroll expenditure for appropriateness; • gain an understanding of the Authority's system for accounting for payroll expenditure and evaluate the design of the associated controls; • Obtain payroll reconciliations and agree to the ledger and payroll reports, and investigate any significant adjustments; • Agree year-end payroll accruals to supporting documentation. • Perform substantive analytical review disaggregated by month.
Operating expenses	<p>Non-pay expenses on other goods and services also represents a significant percentage 27% of the Authority's operating expenses. Management uses judgement to estimate accruals of un-invoiced costs.</p> <p>We identified completeness of non- pay expenses as a risk requiring particular audit attention:</p>	<p>We will</p> <ul style="list-style-type: none"> • evaluate the Authority's accounting policy for recognition of non-pay expenditure for appropriateness; • gain an understanding of the Authority's system for accounting for non-pay expenditure and evaluate the design of the associated controls; • Obtain listing of non-pay expenditure and remove costs relating to depreciation, impairments and audit fees and agree large and unusual items to supporting documentation • Take a non-statistical sample of the remaining transactions and agree to supporting documentation. • Obtain a listing from the cash book of non-pay payments made in April, take non-statistical sample and ensure that they have been charged to the appropriate year.

Reasonably possible risks identified

Reasonably possible risks (RPRs) are, in the auditor's judgment, other risk areas which the auditor has identified as an area where the likelihood of material misstatement cannot be reduced to remote, without the need for gaining an understanding of the associated control environment, along with the performance of an appropriate level of substantive work. The risk of misstatement for an RPR is lower than that for a significant risk, and they are not considered to be areas that are highly judgmental, or unusual in relation to the day to day activities of the business.

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
Firefighters pension scheme	<p>The Authority administers the firefighters pension schemes, with the Firefighters Pension Fund Account being included in the financial statements.</p> <p>We identified completeness and accuracy of pension benefits payable as a risk requiring particular audit attention.</p>	<p>We will</p> <ul style="list-style-type: none"> • gain an understanding of the Authority's systems for calculating, accounting for and monitoring pension benefit payments and evaluate the design of the associated controls; • obtain a schedule of benefit payments by type for the period, prove the mathematical accuracy and agree totals to scheme accounting records. • perform substantive analytical review the benefits paid. • test a sample of new pension benefits coming into payment, agreeing the calculations to supporting information. • test a sample of pensioners transferring from active to deferred status and agree to supporting information. • and subject to the value of outturn figures test a sample of deaths in service or deferment, deaths in retirement or refunds to supporting documentation. • obtain a schedule of employer contributions (received and receivable) by source, prove the mathematical accuracy and agree to supporting evidence. • perform substantive review contributions made across the year. • confirm the value of the top-up grant, including the associated debtor/creditor & ensure the calculation and disclosure is appropriate.

Other matters

Other work

In addition to our responsibilities under the Code of Practice, we have a number of other audit responsibilities, as follows:

- We carry out work to satisfy ourselves that disclosures made in your Annual Governance Statement are in line with the guidance issued and consistent with our knowledge of the Authority.
- We will read your Narrative Statement and check that it is consistent with the financial statements on which we give an opinion and that the disclosures included in it are in line with the requirements of the CIPFA Code of Practice.
- We carry out work on your consolidation schedules for the Whole of Government Accounts process in accordance with NAO group audit instructions.
- We consider our other duties under the Act and the Code, as and when required, including:
 - giving electors the opportunity to raise questions about your 2017/18 financial statements, consider and decide upon any objections received in relation to the 2017/18 financial statements;
 - issue of a report in the public interest; and
 - making a written recommendation to the Authority, copied to the Secretary of State.
- We certify completion of our audit.

Other material balances and transactions

Under International Standards on Auditing, "irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure". All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

Going concern

As auditors, we are required to "obtain sufficient appropriate audit evidence about the appropriateness of management's use of the going concern assumption in the preparation and presentation of the financial statements and to conclude whether there is a material uncertainty about the entity's ability to continue as a going concern" (ISA (UK) 570). We will review management's assessment of the going concern assumption and evaluate the disclosures in the financial statements.

Materiality

The concept of materiality

The concept of materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law. Misstatements, including omissions, are considered to be material if they, individually or in the aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Materiality for planning purposes

We propose to calculate financial statement materiality based on a proportion of the gross expenditure of the Authority for the financial year. In the prior year we used the same benchmark. We have determined planning materiality (the financial statements materiality determined at the planning stage of the audit) to be £847k, which equates to 2% of your prior year gross expenditure on services. We design our procedures to detect errors in specific accounts at a lower level of precision.

We reconsider planning materiality if, during the course of our audit engagement, we become aware of facts and circumstances that would have caused us to make a different determination of planning materiality.

Officer remuneration and related party transactions are often areas that are subject to particular scrutiny by the general public. The inherent risks associated with these are no different to other disclosures in the accounts but to anticipate the needs of readers of the financial statements, we audit these to a lower level of materiality derived from the outturn figures. We will report this in our Audit Findings Report.

Matters we will report to the Audit Committee

Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the Authority any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. Under ISA 260 (UK) 'Communication with those charged with governance', we are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. ISA 260 (UK) defines 'clearly trivial' as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria. In the context of the Authority, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £42k.

If management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to the Authority to assist it in fulfilling its governance responsibilities.

Value for Money arrangements

Background to our VFM approach

The NAO issued its guidance for auditors on Value for Money work for 2017/18 in November 2017. The guidance states that for local government bodies, auditors are required to give a conclusion on whether the Authority has proper arrangements in place.

The guidance identifies one single criterion for auditors to evaluate:

“In all significant respects, the audited body takes properly informed decisions and deploys resources to achieve planned and sustainable outcomes for taxpayers and local people.”

This is supported by three sub-criteria, as set out below:

Significant VFM risks

Those risks requiring specific audit consideration and procedures to address the likelihood that proper arrangements are not in place at the Authority to deliver value for money.

Financial Sustainability

The Authority is operating against a background of

- Funding reductions
- Changes in the legislative and policy requirements
- Changes to the regulatory bodies and frameworks

At the same time it is planning to maintain Council Tax rises at less than 2% and fund its capital programme from reserves. To achieve this the Authority will need to exercise financial discipline

We will review the Authority's arrangements for budgeting and for monitoring and reporting financial performance.

Audit logistics, team & audit fees

Andy Smith, Engagement Lead

Andy has overall responsibility for the audit and the opinions, for ensuring the quality of our audit work and for ensuring we provide you with the best service possible.

Gerard Small, Audit Manager

Gerard is responsible for the technical and logistical aspects of the audit. He will be the first point of contact for your Treasurer and the finance team.

Siobhan Barnard, Audit In-charge

Siobhan will lead all the on-site work and manage day to day aspects of the engagement

Audit fees

The planned audit fees are no less than £29,860 (PY: £29,860) for the financial statements. In setting your fee, we have assumed that the scope of the audit, and the Authority and its activities, do not significantly change.

Our requirements

To ensure the audit is delivered on time and to avoid any additional fees, we have detailed our expectations and requirements in the following section 'Early Close'. If the requirements detailed overleaf are not met, we reserve the right to postpone our audit visit and charge fees to reimburse us for any additional costs incurred.

Early close

Meeting the early close timeframe

Bringing forward the statutory date for publication of audited local government accounts to 31 July this year, across the whole sector, is a significant challenge for local authorities and auditors alike. For authorities, the time available to prepare the accounts is curtailed, while, as auditors we have a shorter period to complete our work and face an even more significant peak in our workload than previously.

We have carefully planned how we can make the best use of the resources available to us during the final accounts period. As well as increasing the overall level of resources available to deliver audits, we have focused on:

- bringing forward as much work as possible to interim audits
- starting work on final accounts audits as early as possible, by agreeing which authorities will have accounts prepared significantly before the end of May
- seeking further efficiencies in the way we carry out our audits
- working with you to agree detailed plans to make the audits run smoothly, including early agreement of audit dates, working paper and data requirements and early discussions on potentially contentious items.

We are satisfied that, if all these plans are implemented, we will be able to complete your audit and those of our other local government clients in sufficient time to meet the earlier deadline.

Client responsibilities

Where individual clients do not deliver to the timetable agreed, we need to ensure that this does not impact on audit quality or absorb a disproportionate amount of time, thereby disadvantaging other clients. We will therefore conduct audits in line with the timetable set out in audit plans (as detailed on page 12). Where the elapsed time to complete an audit exceeds that agreed due to a client not meeting its obligations we will not be able to maintain a team on site. Similarly, where additional resources are needed to complete the audit due to a client not meeting their obligations we are not able to guarantee the delivery of the audit by the statutory deadline. Such audits are unlikely to be re-started until very close to, or after the statutory deadline. In addition, it is highly likely that these audits will incur additional audit fees.

Our requirements

To minimise the risk of a delayed audit or additional audit fees being incurred, you need to ensure that you:

- produce draft financial statements of good quality by the deadline you have agreed with us, including all notes, the narrative report and the Annual Governance Statement
- ensure that good quality working papers are available at the start of the audit, in accordance with the working paper requirements schedule that we have shared with you
- ensure that the agreed data reports are available to us at the start of the audit and are reconciled to the values in the accounts, in order to facilitate our selection of samples
- ensure that all appropriate staff are available on site throughout (or as otherwise agreed) the planned period of the audit
- respond promptly and adequately to audit queries.

In return, we will ensure that:

- the audit runs smoothly with the minimum disruption to your staff
- you are kept informed of progress through the use of an issues tracker and weekly meetings during the audit
- we are available to discuss issues with you prior to and during your preparation of the financial statements.

Independence & non-audit services

Auditor independence

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant facts and matters that may bear upon the integrity, objectivity and independence of the firm or covered persons, relating to our independence. We encourage you to contact us to discuss these or any other independence issues with us. We will also discuss with you if we make additional significant judgements surrounding independence matters.

We confirm that there are no significant facts or matters that impact on our independence as auditors that we are required or wish to draw to your attention. We have complied with the Financial Reporting Council's Ethical Standard and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements. Further, we have complied with the requirements of the National Audit Office's Auditor Guidance Note 01 issued in December 2016 which sets out supplementary guidance on ethical requirements for auditors of local public bodies.

We confirm that we have implemented policies and procedures to meet the requirements of the Ethical Standard. For the purposes of our audit we have made enquiries of all Grant Thornton UK LLP teams providing services to the Authority.

Non-audit services

No non-audit services were identified

Any changes and full details of all fees charged for audit related and non-audit related services by Grant Thornton UK LLP and by Grant Thornton International Limited network member Firms will be included in our Audit Findings report at the conclusion of the audit.

Appendices

A. Revised ISAs

Appendix A: Revised ISAs

Detailed below is a summary of the key changes impacting the auditor's report for audits of financial statement for periods commencing on or after 17 June 2016.

Section of the auditor's report	Description of the requirements
Conclusions relating to going concern	We will be required to conclude and report whether: <ul style="list-style-type: none">• The directors use of the going concern basis of accounting is appropriate• The directors have disclosed identified material uncertainties that may cast significant doubt about the Authority's ability to continue as a going concern.
Conclusions relating to going concern when a material uncertainty is identified and disclosed	We will need to include a brief description of the events or conditions identified that may cast significant doubt on the Authority's ability to continue as a going concern when a material uncertainty has been identified and adequately disclosed in the financial statements. Going concern material uncertainties are no longer reported in an Emphasis of Matter section in our audit report.
Other information	We will be required to include a section on other information which includes: <ul style="list-style-type: none">• Responsibilities of management and auditors regarding other information• A statement that the opinion on the financial statements does not cover the other information unless required by law or regulation• Reporting inconsistencies or misstatements where identified
Additional responsibilities for directors and the auditor	We will be required to include the respective responsibilities for directors and us, as auditors, regarding going concern.
Format of the report	The opinion section appears first followed by the basis of opinion section.
